foodiejaa I just had them for the first time!!! So good. Not a lot of starch and I loved them. Long rice grain 😊

sassywit1 Hi. I have tried both the Basm Rice and Saffron. Both are good quality products. I rate both of them a 5/5

niravpanchal007 Awesome quality. Sample packet shipped it within 2 days after registration. And quality of saffron is amazing. You can say it from it's smell that it's really authentic. Rice quality is also good. I'll rate quality and service 5 out of 5.

torontobeachescouponer My husband made chicken biryani with the Basmati Rice and saffron for dinner tonight. Damn that dinner was good!

whatabite I loved how my Biryani turned out when I made with @canadafoodsofficial Basmati Rice. Long grain Amazing rice. Very impressed 😊 The saffron spice I added in my kheer and it smelt so good 🍴 definitely recommend 🍴

dealsrfun Best basmati rice I've tried! Now I know what good quality rice looks and taste like. Before I just bought any brand but now I will definitely will keep my eye out and buy. Love the saffron! Amazing quality. Both are top rated products!

juluisas I was very lucky to have the opportunity to try the Canadian rice and saffron spice. First impression: the rice is so damn clean! Normally for rice I rinse a few times to get rid of the dirt but for this one, it's so clean! When it's cooked, it's long, soft and fluffy. It doesn't taste as sweet as normal Thai rice, very fresh. For saffron spice, I mix in flour or rice, it dyes everything yellow, and makes the dish look extra delicious. It smells a little fishy and it's also very clean.

mfblling I tested the saffron spice and basmati rice that I received last week. We always buy basmati rice. This one is high quality. Easy to cook and very tasteful. With the addition of the saffron spice, it was delicious. It was my first try with saffron and I loooved it! I will use it again next time I cook rice!!!!

notrealsherin Top quality rice! I cooked it in regular pan and might have added more water than needed. It still came out non sticky, long and perfectly cooked! Saffron too is so good. Added 4-5 strands for one cup of rice and it was perfect! Smells great as well!

ashimatalwar19 I decided to make kheer (Rice pudding) with Canada Foods premium quality basmati rice along with few strands of saffron and it turned out delicious. Aroma was out of the world. I am in love with their products. Definitely give 5/5 stars for both Saffron and Basmati rice. I am so glad I got the opportunity to try their products.

reviewwithza The basmati rice is simply amazing. I have used it so much that the pack is nearly empty now. We enjoy this rice and I think we'll definitely buy it again. From biryani to pulao to white rice - its good for everything. The quality is amazing! The Saffron is soo sooo good. I loved the fragrance and the color it gave. Saffron milk is my new favorite.

mrs_sample_it I am so in love with the Saffron and the Basmati Rice. I made a fabulous dinner tonight. I put the Saffron in oil with the chicken and red peppers. I had onions and cherry tomatoes chopped up in the pan with the chicken. Made up the rice, made up roast potatoes with fresh garlic roasted in the oven. Topped off with greens and croutons. Pictures of this fabulousness is on my page. I thank you @canadafoodsofficial for this amazing opportunity 🙏❤️ I am hooked on your rice & Saffron. Great Company Great Products.

mariamzopez I was chosen by @Canadafoodsofficial to review basmati rice and saffron. Over the weekend I made kofta with red curry coconut sauce and of course added the basmati rice that I cooked by hand in a pot and a strand of saffron. It was delicious. The basmati was so fluffy and the saffron added that extra cuisine touch. Thank you for letting me review your products. I would rate both of these a 5 out of 5!!!!

heavenlyang77 I received the package of rice and saffron one day after sending the message! We tried the saffron tonight in paella and it was delicious 😊

ivymandias The basmati rice was excellent and so was the saffron spice! The recipe I made tasted delicious 😊

notrealsherin Love the package sizes! Fresh and delicious. Definitely premium quality. Easy to eat as there are no kernels. Love that they are simply pure, nutritious nuts and have no additives ❤️ having them in individual packs makes sure people with allergies to one type of nut can still eat the rest, so i prefer these over the mixed nuts varieties.

mmsevilla My family and I really enjoyed these nuts! The nuts that come in the 12 mini variety come perfectly salted and have a great flavour. These are perfect for snacking we also tried them paired sliced turkey and cheese! Thanks for the chance to try these delicious nuts.
